

REMOTION III

Triple Wavelength Diode Laser Hair Removal Machine

Effective

2,500w power supply, 10 layer laser stack & 1200w power output, Effective treatment guaranteed

Safe

Gold Standard Technology with consideration and effect for all skin types

Zero

Consumables

No added expenses to operating costs

Fast Treatment

“InMotion” intelligent mode bringing the fastest (10 shots a sec) Treatment

Easy to Use

Quickly select parameters and operate with ease

schedule your demo today at muneraesthetics.com

REMOTION III

1200w High Power Handpiece

High power and short pulse duration improves both comfort level and efficiency. Guarantees a fast and effective treatment.

US Imported Laser Bars

High quality US manufactured laser bars allows over 40,000 hours of continuous laser use. With a guaranteed 200 million shots.

Three Wavelengths

808nm (golden standard) most hair
755nm (fine) blonde hair
1064nm (thick) Dark hair

Advanced Hair Removal

The Remotion III is the future of non invasive, fast, pain free hair removal. Using 3 wavelengths to kill the hair follicle down to the root. With its highly intuitive interface, the Remotion III allows you to select the parameters such as patients gender, treatment area, skin-type and selects the best option for your patient!

Built to Last

The instrument is internally loaded with a TEC refrigeration system and an intelligent temperature monitoring sensor to ensure that the operating temperature of the machine remains at a constant 20°.

Double Filtration

Stage one adopts PP cotton to filter impurities and prevents laser Blockages.

Stage two uses a special ion filter to block out metal & avoid inner laser corrosion

Easy To Use

Quick and easily select client's parameters and Remotion III generate the best treatment program for your client. With preprogramed solutions Remotion III was designed to be intuitive and simple to use for all user levels.

REMOTION III

Remotion III Specifications

Laser Type:	Semiconductor Laser	Energy Density:	1-120J/cm ² Deviation ($\leq \pm 2\%$)
Wavelength:	808nm + 755nm + 1064nm	Frequency:	1-10 HZ
Output Mode:	Pulse Output	Cooling System:	TEC Cooling System
Control Method:	Touch Control	Input Power:	2500w
Screen Size:	10.4 inch ²	Output Power:	12000w
Pulse Width Range:	5-200ms	Voltage:	AC 220v \pm 10% 10A 50HZ, 110v \pm 10% 10A 60HZ
Spot Size:	12 x 12 mm
